

WABIL ABDALLA

Data Analyst

Cairo, Egypt • +20 1555399367 • wabilmaghrabi@outlook.com • [linkedin.com/in/wabilabdalla](https://www.linkedin.com/in/wabilabdalla) • wabilmaghrabi.github.io/portfolio

PROFESSIONAL SUMMARY

Data analyst with a clinical background (BDS) pivoting into analytics, translating raw data into stakeholder-ready insight through end-to-end Power BI dashboards — data cleaning, Power Query ETL, data modeling, custom DAX, and executive reporting — validated across \$24.9M+ in retail sales, 1,470 employee records, and 5,000+ banking accounts. Google Data Analytics Professional Certificate; Diploma in Data Analysis covering Python, SQL, and Tableau.

CORE COMPETENCIES

Power BI (DAX, Power Query, Data Modeling) • SQL • Python • Tableau • Data Visualization • ETL • Data Cleaning • Stakeholder Reporting

Also: R, Google Looker Studio, Advanced Excel (Pivot Tables, VLOOKUP, Charts), Git, Google Sheets, JSON Theming / Custom Visuals

PROFESSIONAL EXPERIENCE

Market Retail Dashboard | Personal Project | 2026

github.com/WabilMaghrabi/market-retail-dashboard

- Cleaned and modeled raw retail sales data in Power Query, then built a 4-page interactive Power BI suite (Executive, Products, Customers, Returns) that surfaced the drivers behind retail revenue loss.
- Segmented products into price tiers with custom DAX measures, giving stakeholders a single reliable view of profit margin and return-rate performance to guide inventory strategy.

Adventure Works Dashboard | Personal Project | 2026

github.com/WabilMaghrabi/adventure-works-dashboard

- Built Power BI dashboards with Power Query ETL and custom DAX financial KPIs to evaluate \$24.9M+ in retail sales and 84K+ units sold across product and customer segments.
- Pinpointed key revenue drivers for marketing strategy using decomposition-tree models and interactive cross-filtering.

Employee Insights Dashboard | Personal Project | 2026

github.com/WabilMaghrabi/employee-insights-dashboard

- Cleaned and structured raw HR data for 1,470 employees in Power Query, then built an interactive Power BI dashboard tracking workforce performance indicators for data-driven people decisions.
- Standardized disparate HR fields into a single reusable data model, backed by custom DAX measures for consistent metric reporting.

Corporate Banking Performance Dashboard | Financial Analytics | Personal Project | 2026

github.com/WabilMaghrabi/Corporate-Banking-performance-Dashboard

- Modeled relational data across 5,000+ banking customers, accounts, and transactions into an interactive Power BI dashboard built for executive review.
- Authored advanced DAX measures and calculated columns to evaluate financial metrics and transaction trends, with custom JSON theming and SVG panels for corporate-grade reporting.

EDUCATION & CERTIFICATIONS

Diploma in Data Analysis | AMIT Learning | 2025 – 2026

Coursework: Excel, SQL, Python, Power BI, Data Visualization, Statistics, Tableau

Google Data Analytics Professional Certificate | Coursera / Google | 2024

Capstone Project: Bellabeat Smart Device Analysis

Dental Internship | Al Azhar University | 2024 – 2025

Bachelor of Dental Surgery (BDS) | Ibn Sina University | 2017 – 2024

Languages: Arabic (Native) | English (Professional Working Proficiency)
